

Wayne Judson

As a former pupil of Heanor Gate Science College, I am proud to be a community Governor within the school. My own children attend both HGSC and the local primary school.

With a desire to ensure the school continuously improves, I play an active role as a governor helping to ensure that we establish an outstanding school and an enjoyable place to teach, learn and work.

In addition to being Vice Chair, I am a link governor for Pupil Premium and Catch Up Premium - key areas in making sure that funding is used to support disadvantaged students and improve their academic outcomes.

Outside of the school I am also a foundation Governor at Smalley Richardson Primary School as well as being a local Parish Councillor, both roles linking closely with HGSC.
