

Ian Miller

I am a Chartered Engineering Leader and moved to Heanor with my family in 2014. I am married to Sally and we have 3 children, two of which attend Heanor Gate Science College. Prior to this, we all lived in Nuneaton where I was a Governor supporting Special Educational Needs within the school; I held these roles for 5 years.

I became a parent Governor because I have a passion for education and enjoy being active within the local community.

I believe that every day we continue learning and growing, every child should have an opportunity to grow at his or her own pace. I have a keen interest in Technology teaching within schools.
